

GREAT LAKES BY DESIGN

2025 MEDIA KIT

Market research

GREAT LAKES BY DESIGN MAGAZINE is a design publication highlighting creative professionals and their work, and is intended for an affluent and upscale consumer audience throughout major markets in the Great Lakes region. Although the affluent and wealthy consumer may be defined by a high-accruing annual income or based on a high net worth, U.S. households with a minimum net worth of \$1 million comprise nearly 12 million households in the country.

In 2019, for the 10th consecutive year, the number of wealthy U.S. households reached a new high as stated by the Market Insights Report 2019 by Spectrem Group. Increasing two-and-a-half percent in 2018, the number of U.S. households with a net worth between \$1 million and \$5 million, not including primary residence, now stands at 10.23 million.

Customized, personalized products and services rank high on the priority list of affluent consumers, which are defined in the study as adults with a household income of \$250,000 or more, according to the 7th edition of *Affluent Consumers: Demographic Patterns and Spending Trends*.

There is also evidence that the mass affluent population in the U.S. is comprised of upper-middle class individuals and households, with top expenditures in areas like: vehicle and boat, travel, personal insurance, home and garden, electronics, and home entertainment. In 2017, the top five percent of American wage earners made between \$150,000 and \$200,000. Consumers between the ages of 45-years-old and 54-years-old have a mean household income of \$109,366 before taxes, the highest of all age variables, according to a Consumer Expenditure Survey by the Bureau of Labor Statistics from 2018.

This group spent the most on owned dwellings as well as major appliances and floor coverings. The age group before, from 35-to-44, spent the largest mean amount on food and alcoholic beverages, while the age range after, from 55-to-64, spent the most on repairs and maintenance to the home. In general, spending on food increased two-and-a-half percent in 2018, both at home and away from home, according to the Bureau. Housing expenditures also increased one percent.

5 Top Reasons

FOR ADVERTISING WITH GREAT LAKES BY DESIGN MAGAZINE

HIGH-QUALITY

CONTENT: Great Lakes By Design is known for its high-quality content, including insightful articles, stunning visuals, and expert opinions by thought leaders in design-driven industries. By advertising alongside such content, you can capture the attention of readers who are actively engaged and interested in design trends, innovation, and best practices.

TARGETED AUDIENCE:

Great Lakes By Design focuses on architecture, interior design, custom built homes, and other design-related industries in the Great Lakes region. Advertising in this magazine allows you to reach a highly targeted audience of experienced professionals, consumers, and enthusiasts interested in these fields, with a longer shelf life than other platforms, like newspapers, radio, and social media.

REGIONAL EXPOSURE:

If your business operates within the Great Lakes region or targets customers in that area, advertising in Great Lakes By Design can provide excellent regional exposure. It allows you to connect with potential clients, partners, stakeholders, and communities in the greater region and strengthen your brand presence locally.

INDUSTRY AUTHORITY:

By associating your brand with a respected publication like Great Lakes By Design, you can enhance your industry authority and credibility. Readers perceive advertised businesses as knowledgeable and reputable, which can positively impact their perception of your products or services.

NETWORKING:

Advertising in Great Lakes By Design can open doors to valuable networking opportunities within the design community. You may attract collaborations, partnerships, or invitations to industry events, further expanding your business connections and potential for growth.
